Bastien's Invitation to Music

Ages 4 & Up

Sensitive and inspired teaching of early childhood students is a satisfying and joyful experience for both parents and teachers. Ensure the success of your youngest students with the Bastien's **Invitation to Music series** – a fun and exciting introduction to the world of music.

Piano Party, Theory & Ear Training Party, and Performance Party provide the perfect start for early beginners. Ideal for individual or group instruction, the series is paced appropriately for young children and assumes no reading or writing readiness. Color-coded left and right hand parts make reading easy and fun. Delightful music, colorful illustrations, and captivating activities will enhance the learning experience and greatly motivate your early beginners.

A great way to give young beginners the extra attention they need.

Piano for the Young Beginner

Ages 5 & Up

Young beginners of ages 5-6 need a little extra attention - **Piano for the Young Beginner** provides the perfect primer level books specifically geared towards these students. Utilizing a Middle C approach, these books begin with pre-staff notation and proceed to reading on the Grand Staff. Slower pacing allows additional reinforcement to ensure a solid foundation of fundamental skills and concepts.

Your 5 and 6 year olds will delight in the bright, happy melodies; fun, clever lyrics; and captivating, pedagogically related illustrations. **Piano for the Young Beginner** is also an ideal start when you have two beginning students from the same family.

Bastien Piano Basics

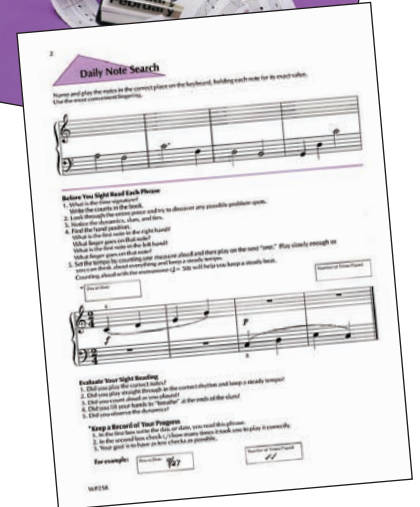

Ages 7 & Up

Bastien Piano Basics has proven itself time and time again as the #1 most trusted and preferred piano method available. Piano teachers know it as the most accessible, pedagogically sound, visually stimulating, and most musical method available. They've seen the spark in their students' eyes as Bastien Piano Basics motivates them and leads them to achievement and success.

Bastien Piano Basics uses a gradual multi-key approach, with reading beginning in the C five-finger position. Five levels of carefully graded lesson material provide constant opportunities for reinforcing basic concepts. The five course books for each level, correlated page-by-page – METHOD, THEORY, PERFORMANCE, TECHNIC, and A LINE A DAY SIGHT READING – provide a complete and well-rounded musical education.

Accompaniment CDs – including fun duets – motivate students even more, adding great enthusiasm to music-making and enhancing their home practice.

Students, teachers, and parents alike will find *Bastien Piano Basics* an outstanding resource for building a child's confidence, musical understanding, and enjoyment.

**Special Value Packets
on pages 12-15!**

Even teenagers make time for piano lessons.

The Older Beginner Piano Library

Ages 12 & Up

Written specifically for the requirements and desires of students with many demands on their time, the **Older Beginner Piano Library** grabs their interest with outstanding arrangements of popular folk and classical melodies. A harmonic chord approach allows students

to create a fuller sound from the beginning, making songs sound more difficult to play than they really are.

Clear, precise graphics make new concepts understandable and easy to grasp. Proper pacing and interesting supplemental materials reinforce each concept, ensuring a successful introduction to the piano for your older beginners.

Bridge the gap between beginning method books and master classics.

Intermediate Piano Course

Intermediate Students

Tired of sifting through literature and studies to find appropriate exercises and etudes for your intermediate students? The Bastiens have done it for you.

James and Jane Smisor Bastien's **Intermediate Piano Course** offers a well-integrated curriculum that stresses graded repertoire, theory, and multiple-key solos...just the variety of emphasis intermediate students require.

Logically constructed and presented, this comprehensive course fills an important pedagogical niche, providing a structured program that assures step-by-step development during this critical time in a student's progress.

Rewarding leisure time activity for them. More students (& greater income) for you.

Bastien Piano for Adults

Ages 12 & Up

Teaching adults is a great way to fill your schedule—especially during school and evening hours when younger students have other commitments. Adult students also give you a change of pace, and their motivation and enthusiasm provide a great deal of personal satisfaction to both teacher and student.

Adult students offer their own unique challenges, but **Bastien Piano for Adults** helps you meet these challenges with ease. Lessons, Theory, Technic, and Sight-Reading are all

combined in one easy-to-use book. Students will enjoy playing a variety of music custom-fitted for adult tastes, including well-known classics, folk songs, spirituals, ragtime, blues, boogie and jazz.

Accompaniment CDs enhance student practice and enjoyment.

Designed to take students approximately nine months to one year to complete, these books are gradually paced to ensure student confidence and success. Bonus features include a music dictionary, composer biographies, and an answer key that allows students to correct their own theory work.

Bastien Piano for Adults...a great way to fill your open hours with happy, motivated and successful adult students!

This block contains musical notation. On the left, it shows the G Major Scale with fingering and breath marks, and Primary Chords in the Key of G Major (G, C, D, E7). Below that is the G Major Scale and Chords exercise. On the right, it shows the 'Challenge Piece' 'Maple Leaf Rag' by Scott Joplin, with musical notation for the first few measures.
