About the Composition

Uncle Sam's Jam is a patriotic medley featuring the traditional song "Yankee Doodle" and the 1906 song "You're a Grand Old Flag" by George M. Cohan (1878–1942).

Uncle Sam, the famous icon with the top hat and white beard, was inspired by a real person, Samuel Wilson (1766-1854). He was a meat packer from Troy, New York who, along with his brother, established several successful businesses. They were considered fair and friendly men. One theory suggests that during the War of 1812, Samuel Wilson donated rations of beef to the U.S. Army. The beef barrels were stamped "U.S." to indicate property of the United States, however soldiers began referring to the "U.S." stamp as beef as coming from "Uncle Sam." Over time, association between Samuel Wilson and "Uncle Sam" grew and the character became a symbol for the United States. It has been a prominent part of American culture, identity, and pride since the mid-1800s.

The first song in this medley was first sung by the British in the mid-1700s. "Yankee Doodle" was quickly adopted by the Americans during the Revolutionary War and from that time forward, it has been used as a patriotic song, and different sets of lyrics have been written to reflect the changing times. The term "Yankee" has many meanings: in the international community, it simply means, "American;" in the United States, it refers to people from the northern states. "Yankee Doodle" is the official state song of Connecticut.

"You're a Grand Old Flag," composed by George M. Cohen, premiered (1906) in his musical, *George Washington, Jr.*, in New York City. The song was published and copyrighted that same year and became the first song from a musical to sell over one million copies. "You're a Grand Old Flag" honors the American flag and conveys pride for the United States.

Kjos Music's Guide to © Copyright

Composers rely on the income that their compositions generate, and it is the job of the copyright holder to protect the work from infringement. Copyright laws can be pretty tricky to navigate, so here are a few helpful tips to guide you through the process.

Adjudicator Copies

During contest and festival season, the majority of the inquiries we receive concern making photocopies of scores to meet specific requirements for the judges at a festival.

If you're performing a concert selection out of one of our method books (*Tradition of Excellence*, *String Basics: Steps to Success*, *First Place for Jazz*, among others), permission may already be given to make the necessary photocopies for judges at these festivals. Please refer to the notices printed in the teacher score on the specific piece.

If a student is performing a solo from one of the method books listed above, permission is already given. In addition, a photocopy may be given to the accompanist.

Extra scores for our band and string repertoire (*Beginning BandWorks*, *BandWorks*, *Conservatory Editions*, *StringTracks*, and *Steps to Successful Literature*, among others) are available for purchase from your favorite music dealer. If you're performing a work from a series that's not listed above, please contact us for permission.

Making an Audio or Video Recording

A license is required any time you make an audio or video recording of a copyrighted work. Audio recordings are compulsory, meaning, we can't deny your request; you just need to apply for the Mechanical License and pay the royalty. The royalty rate is set by the Library of Congress. For current rates, please visit www.copyright.gov.

The license to make a video of a performance, known as a Synchronization License, is not compulsory. Permission must be obtained from the copyright holder before distributing any copies, regardless if they are being sold or given away for free.

Arranging for Marching Band or Another Ensemble

We're pleased to grant licenses to make a marching band (or other) arrangement of one of our concert works. However, permission is required before work can begin, and there are a few works whose composers have indicated that they do not want their compositions to be altered. Please contact us to make sure the piece you're interested in is available for licensing.

If you're planning to play the original piece without **any** alterations or additions, then a license isn't needed. However, for example, if you're rewriting the brass parts for marching instruments (mellophones, bugles), or adding marching percussion, or making cuts, adding repeats, or creating a medley with another composition, a license is required.

What If I Want To ... ?

If you'd like to use a composition in **any** other way, please contact us and we would be glad to advise you.

Contest and festival season is a busy time for our Copyright Office. Please contact us at least **three weeks** before your concert date so that we may help you in time. Please visit www.kjos.com and click on the Licensing tab to find out more information or to submit a license request.

We're so pleased that you've chosen to perform one of our pieces! We appreciate your support and we want to make the licensing process as easy as possible for you.
